Meet Mithun

"This programme has been a big step toward my professional goals. It gave me a solid foundation in quantity surveying, especially in areas like cost estimation, contract management, and sustainable construction. The practical skills

I gained, like using CostX and understanding Irish construction standards have made me feel much more confident and job-ready.

It's definitely helped me move closer to a long-term career in the construction industry here in Ireland. Currently I'm currently working at Suir Engineering in Waterford as a Junior Civil Tendering Engineer / Estimator in the Estimation Department."

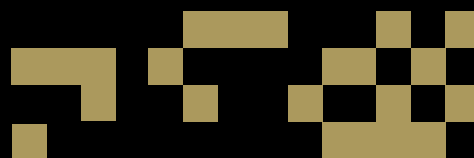

Mithun Wali, MSc in Quantity Surveying, Civil Tendering Engineer with Suir Engineering, Ireland, 2024/2025 intake
